

I am adamantly against the overturning of the New Jersey "Do Not Call Law". Because of this law, I can relax without having to tell caller after caller after caller that I am not interested in their sales pitch. When I am ready to make a purchase, I know how to do it....where to find what I want, when I want it. I DO NOT NEED UNSOLICITED CALLERS TO CONTACT ME TELLING ME WHAT THEY THINK I WANT OR NEED!! I will fight all the way to keep this law from being overturned. Why is it that the criminals and telemarketers have all the protection and the consumer and victims of these people have to fight so hard for their own protection? The law is a good law! IF IT AIN'T BROKE, DON'T FIX IT!! And the Do Not Call Law AIN'T BROKE!!
